Using a redeem code within RaceRoom?

J-F Chardon - 2018-01-19 - 0 Comments - in FAQ

Have you obtained a redeem code for content or in-game currency and cannot find how to use it?

- Start the game and look at the main menu
- Click the "STORE" button
- In the upper right corner, click on the button that displays your vRP balance
- In the drop down menu that appears, click redeem code
- A small window will appear where you will enter your code
- After entering the code, click the "redeem code" button
- The code should now be redeemed.
